Remanufactured Products Warranty

All remanufactured products are covered for a period of one year. This warranty covers replacement on malfunctioning remanufactured products occurring during the warranty period resulting from defects in material or workmanship. To obtain warranty replacement, the defective or malfunctioning product must be delivered to P C Industries (PCI) with a copy of the original invoice or repair order to validate the date of purchase. PCI may at its discretion, replace rather than repair the remanufactured product. A reasonable time must be allowed to perform the warranty repair after returning the remanufactured product to PCI. The warranty period begins on the date of sale.

This warranty does not cover replacement due to accidents, misuse, storage damage, negligence, misapplication or modifications exceeding the manufacturer's specifications. Labor costs for product removal and reinstallation are not covered by this warranty. This warranty does not cover any economic loss, including without limitation, communication expenses, meals, lodging, loss of use of the engine or equipment, loss of time, inconvenience, cargo damage or any other costs or expenses resulting from a defect covered by this warranty.
